

Web Site Project **100** marks

This project will test your abilities as a web designer. This project will most likely cause headaches and serious thoughts about destroying your computer, please don't. The goal of this project is to produce a website that will inform the viewer of either your choice of:

A personal biography

Mock Business site

Website for a client

The criteria for each choice would be almost identical being:

Needs to have a minimum of 5 web pages (Home page and 4 other pages)

Needs a minimum of 2 CSS files (one for printing, one for viewing)

All pages and CSS need to be valid

The content must be school appropriate!

The website is easy to navigate and all links work.

Website should contain at least one link to a related website.

File directory should be organized and logically named

Website shows effort and creativity

Specific requirements pertaining to your selection:

Biography:

Each page should tell another part of your story such as: Future goals, bucket list, Past accomplishments/experiences, Hockey stats page of yourself – who you are in a nutshell, Interests, hobbies, sporting interests, food page, etc.

Mock Business:

Could be any business real or made up: Examples: Cooking site, shopping site, clothing site, gaming, etc.

Big business or small business

Specific criteria – should have a logo and slogan, a contact us page, promo/product page, vision/about us page, plus one other page of your choice – See me for more details if need be.

Client Site:

Marked on the criteria of the client's needs, this is a challenging one because you are being graded by two people. This option requires an actual client with whom I have spoken or met with before proceeding with this option. If you wish to do this option, please be aware of the potential for extra work involved.

When completed either submit in a zipped folder online or turn it in via USB stick.
